AKASH

akash@gmail.com

SUMMARY

Akash is a Computer Science Engineering student at Kelly Technological University (UPBADI) with hands■on experience in real■time multi■stack and IoT■integrated development, having contributed to AI■driven products, the Rally platform, RIV Agriculture, and an SIH energy■consumption system. He has earned four hackathon awards and completed a notable project in collaboration with IIT RoPEr, and he is eager to bring his skills to your company.

EDUCATION

KLE Technological University, Hubli **2024 – 2028**

B.E. in Computer Science & Engineering CGPA: 9.80 (up to 3rd Sem) | 10/10 SGPA in 3rd Sem

Karnataka State Board **2022 – 2024**

Class XII (PUC) Percentage: 96.50%

SKILLS

Languages: C, C++, Java, Python, JavaScript

Frontend: HTML, CSS, React.js

Backend / Databases: Node.js, Express.js, MongoDB, MySQL, Firebase, SQL

Hardware & IoT: Arduino UNO, IR Sensors, Motor Drivers, Mechanical Systems

Tools & APIs: Git, GitHub, REST APIs, Razorpay, Hugging Face Models, Geolocation APIs

Assessed Topics: General Programming

Programs Enrolled: Full-Stack Development, Cloud & DevOps

ACHIEVEMENTS

- Scored 10/10 SGPA in 3rd Semester; felicitated at the college annual function for outstanding academic performance.
- 2nd Prize — Technivex Hackathon (Software + Hardware Integrated IoT Hackathon), KLE Hubli, as Software Lead.
- 1st Prize — SDM Dharwad Robotics Competition (Line Following Robot).
- 2nd Runner-Up (NEI Prize) — NEI Mysore Robotics Competition (Line Following Robot).
- Top 3 Ranking — Tech X Hunt Coding Competition conducted by Code Club, KLETU Hubli.
- Team Lead — Coderush Hackathon 2025, GM Institute of Technology; built MERN-based Aarohi agriculture platform.
- Team Lead — PUPA 2026, KLE Tech University; led team 'Status Code 200' to deploy Akshay Smart Canteen live.

STRENGTHS

- Correctly distinguishes between declaration and initialization of variables.
- Identifies that uninitialized variables contain garbage values.
- Uses simple examples (e.g., int num = 4) to illustrate concepts.

Soft Skills: teamwork, strategic thinking, communication, adaptability, leadership

PROJECTS

Project | Cloud & DevOps Program

– A project built as part of the Cloud & DevOps program, demonstrating practical application of course concepts.

– GitHub: https://github.com/sharanu-patil33/ai-mentorship-platform

Project | Full-Stack Development Program

– A project built as part of the Full-Stack Development program, demonstrating practical application of course concepts.

– GitHub: https://github.com/sharanu-patil33/ai-mentorship-platform

Motion■censored Gaming Board

– Tech: ESP32, MPU■6050 motion sensor, ESP■NOW (ESP■Novo), Arduino IDE, C

– A board that moves in six directions based on MPU■6050 motion data, with dual ESP32s handling sensor fusion, motor control, and wireless communication to a web interface.

EXTRA-CURRICULAR

• He enjoys physical fitness activities like kabaddi, chess, and table tennis, exploring new places, and spending quality time with friends.

• Passionate about combining software engineering with hardware/IoT systems — actively building projects that bridge both domains.

• Regular participant in hackathons, coding competitions, and innovation challenges at university and inter-college level.

• Interests: Full-Stack Web Development, IoT & Embedded Systems, AI & Machine Learning, Competitive Coding.
